

## Award Winning Interior Designer for Office Space in the Lehigh Valley

In 1995 DesignPoint President Les McCoy started a commercial interior design firm in Bethlehem. Since then the firm has transcended into a full-service interior design and architecture firm that has created many beautiful office and corporate spaces – and has won numerous awards along the way.

McCoy's firm, DesignPoint, has worked with local companies in Allentown, Bethlehem, Easton and around the Lehigh Valley. They have also worked with small and large companies in Philadelphia, New Jersey and mid Atlantic region on their interior architecture and space planning.

In the Lehigh Valley, notable projects like [Serfass Construction](#), [Bosch Rexroth](#), [B. Braun Medical Inc.](#), [Originate Ventures](#), [Molewski Financial Partners](#), [Avantor](#), and others have garnered attention.

“Our projects are our best marketing,” admits McCoy. “When we design office spaces for a company, they get excited about it and show it off to their clients, colleagues and friends. Inevitably, they are asked who did the interior architecture and our name gets passed along.”

Excellence in corporate office design is rooted in understanding job functions, work flow, corporate culture, and how spaces should be used to maximize work efficiency and aesthetics. “We work hand-in-hand with clients each step of the way to achieve their goals,” says McCoy. The sustainability and growth of DesignPoint speaks for itself as clients refer new business to the interior designers.

DesignPoint clients are not the only ones praising their work. In 2016, DesignPoint won the 2016 Small Business Award of Excellence by the Greater Lehigh Valley Chamber of Commerce, one of the country's largest chambers of commerce. Additionally, DesignPoint has won numerous awards and recognitions from professional organizations, magazines and others in every industry they work in. DesignPoint also specializes in hospitality, senior living, healthcare and residential interior design.

[DesignPoint is a full-service interior architectural design firm](#) that has helped many, many corporate and medical offices perform to their maximum potential for client engagement and employee productivity. Over the next few months, DesignPoint will be highlighting a few client stories that will provide insight into how top executives work. The stories exemplify how to strategically inject best practices for space planning, layouts, and interior architecture for successful businesses.
